Getting to Know Ubuntu 14.04

The Ubuntu operating system provides all the features you would expect from a sophisticated desktop.

Use the **Launcher** on the left hand side of the screen to **start your favorite apps.** You can switch between running apps by clicking on their icons. Right click on an icon in the Launcher to show a menu of actions. Actions include adding and removing application icons.

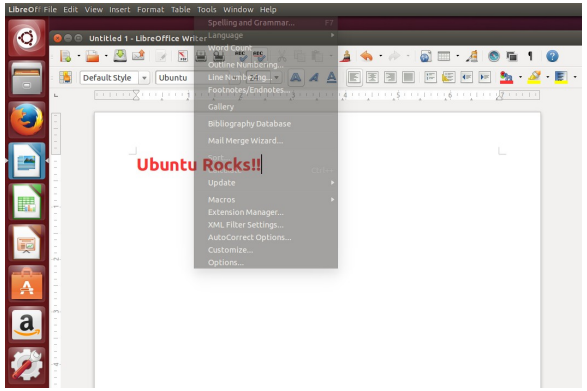

When you click the Ubuntu Circle of Friends Logo at the top of your application list, you'll open the **Dash**. From the **Dash** you can **search or browse** files, photos and recently used applications. You can even view results from online sources!

Access the **Menu Bar** at the top of the screen to view options for the current application window you're working in. You can **Mouse over the Menu Bar** to see the drop-down menu. The example here shows the LibreOffice Writer drop-down menu.

Window controls are on the left of the title bar of the window.

For an **interactive tour** of Ubuntu, visit http://www.ubuntu.com/tour/

For **friendly help** from the Ubuntu community, visit http://askubuntu.com

Access the **Ubuntu Desktop Guide** by clicking the gear icon in the top right corner of your desktop and select 'Ubuntu Help' for official documentation.

ubuntu

Why Ubuntu is the Best Operating System in the World

Ubuntu is Free!

No strings attached- you don't have to pay for Ubuntu software. It's also free from proprietary restrictions so you don't need an activation key to keep using it. Ubuntu can be installed on as many computers as you want.

Virus-Free

Ubuntu is free from viruses and doesn't require expensive anti-virus software to stay that way. You'll finally be able to refer to a virus as a contagious disease instead of an annoying computer invasion.

Free Applications

On top of the preinstalled applications like the LibreOffice Suite and Firefox Internet browser, there's thousands of apps available for free in the Ubuntu Software Center! From extensive photo-editing apps to professional video production suites, there's an app for every type of person!

Free Tech Support

No need to wait on hold with tech support for half your life- just search the web or access the free Ubuntu Desktop Guide for answers to all your questions. There are thousands of fellow Ubuntu users able and willing to help!

Use your existing hardware for your new Ubuntu installation. System requirements to run Ubuntu are minimal and odds are, your hardware will work!
